

THE GARDEN

AT ST. FRANCIS EPISCOPAL CHURCH

ABOUT US

The Garden at St. Francis cultivates the connection of soil and spirit and the reverence for God's earth in order to bring healthy and nutritious food to those in need. We strive to protect, restore, and cultivate the earth God has entrusted to us – the only home we have in this vast cosmos that is the image and likeness of its creator.

Volunteer and learn how to grow alongside us, all are welcome.

MINISTRIES

FOOD ACCESS

We offer affordable organic produce at our Sunday Farm Stand, accept Farmers Market Nutrition Program coupons, and donate year-round to local food pantries.

HORTICULTURAL THERAPY

We work with Helen Keller Services for the Blind and Life's WORC throughout the summer to enable their clients to connect with the earth.

PROTECTING POLLINATORS

The fabric of our interconnected universe is brought to light through our work protecting our native pollinator and plant populations.

CREATION CARE

As people of faith, we recognize our responsibility to care for the earth God has entrusted to us, to atone for the damage caused in the past, and to commit to sustainable practices for the future.

CARING FOR GOD'S CREATION
AND FEEDING GOD'S PEOPLE
IN NORTH BELLMORE, NY

VOLUNTEERING

Join us during our public hours to deepen your understanding of farming, help us feed our neighbors, and cross-pollinate ideas with our other volunteers!

- Wednesdays 3-6PM
- Saturdays 9AM-3PM

NATIVE PLANTS & POLLINATORS

Many of our food crops rely on bees to pollinate them. To sustain our honeybee and native pollinator populations, we host native plant and pollinator gardens.

FOOD JUSTICE

As food prices continue to rise, we are committed to strengthening our local food system by offering our fresh, local, organic produce to our neighbors at prices below supermarket rates. We believe in providing access to organic produce, sharing the knowledge of how to grow and prepare our own food, and sharing our bounty with our neighbors in need. Our community cookbook is free and not hidden behind a paywall.
